We recommend you to use version 3.0. PS Tray Factory Product Description PS Tray Factory is a professional and highly powerful software that can help you to resume your downloads and track your downloads items easily. In other words, you can resume the partial downloads easily, you can control your downloads and they will be listed on the tray. While using this software, you will no longer remember the previous progress of your download items. Instead, you can complete your download item with a single click. Furthermore, you can view your download items in a list, or you can sort them based on date. Moreover, you can choose the size of your downloads list that you can resize it from the tool icon. You can adjust the color of the list and the progress bar. In addition, you can view your downloads history in a tree view. However, you can also pause your ongoing download and lock the files. Moreover, you can also open the download files with the default software of your operating system. Finally, you can complete your previous unfinished downloads as quickly as possible, and also update the missing files. Furthermore, the interface is user-friendly and easily customized. When you are tired of opening all kinds of empty tool icons to resume and control your downloads items, you can run the PS Tray Factory. By using this tool, you can resume and control your downloads easily with a single click. Moreover, the tool can help you to sort your downloads based on your preference. Furthermore, while using this tool, you can read the name of your downloaded file and watch the download progress from the tray icon. When you want to customize your download items, you can change the color scheme and layout easily. Moreover, you can even make a background image on your tray icon. Moreover, the tool can add useful windows that you do not need to open every day. The huge download volume of windows opens a lot of time if you are downloading from the web. However, you can avoid this frustration with the help of PS Tray Factory. Installation instructions: Step 1: Run the downloaded file and choose the installation directory 1. Click on the downloaded file to run and accept the agreement 2. Click on the next to continue Step 2:
