## GTA VICE CITY - SHQIP (ALBANIAN VERSION)

We have a non-functioning fan on my game. Any ideas of how to fix it? I found some people who have solved it and a forum on that, but it just says to unplug and plug it back in which I have done 3 times already. The fan seems to work because it does its job, but just won't show the life bar. I also have some black streaks on the screen after it says it's refreshing, and once I beat the game. A Gamecube ports was released in Malaysia, retitled as The Vice City Chronicles in PAL regions. The game has a pre-loader instead of downloading the game and it also lets you do day-night gameplay via a clock on the main menu. GTA Vice City Albanian Version Download. Includes GTA Vice City: Shqip and other bonus content! Shqip is one of the most interesting versions of Grand Theft Auto: Vice City. In 1999, a very similar game was released by The Albanians, one of the most infamous crime groups in the whole GTA saga. The game was called Mafia3 Shqip and it was released a year before Grand Theft Auto 4. Rockstar North developed it in GTA San Andreas, but the rights for the game were later transferred to The Albanians for them to make their own game. It was supposed to be the most authentic game in the series to date, and apparently it was. Instead of based on San Andreas, like all other games in the series, Shqip was based on Vice City and it was the first GTA game to feature a smaller depiction of San Andreas. In Shqip, players can play as four characters, each one being an infamous person of the city. They're : Xu Shqip, Thock (Thako), Giomalo (Gio): 3e33713323
