Semantic RSS Reader Crack +

Semantic RSS Reader is an intuitive software that enables you to create a large collection of RSS sources and receive live news feed from each of them. The software comes as a database of RSS sources and allows you to view the contents of the webpage in the dedicated section, in its interface. Reliable RSS reader A large collection of RSS sources The purpose of Semantic RSS Reader is to integrate standard RSS Reader applications and redesign them with the help of Web 3.0 parameters, as well as add Semantic Web features. The software can gather information from the indicated sources, and translate them as news feed received directly into the software. The application comes with predefined categories in which you may add several RSS sources. These sources are valid Web addresses, that you can easily visit in the dedicated area. In other words, Semantic RSS Reader also works as a webpage viewer and browser. Categories and automatic feed Each of the categories contains related content, and can be viewed as an expandable tree structure. You may easily refresh a specific category, by selecting the option from the context menu, or reload the news feed originating from all the sources consecutively, from the File menu. All the news feeds are displayed in the box below the tree structure and the contents of each source can be viewed in the browser area. Additionally, you may access a webpage that does not feature as a RSS source and easily add it to the collection by clicking the star symbol, Trace. Also, you may automate the process of reloading all the sources, at the selected time interval. News feed at one click away Semantic RSS Reader can bring you news feed from all your favorite RSS supporting sources, in one place. The software, however crashes unexpectedly, or takes a long time to respond sometimes. The feed is updated every time you refresh the page, but you cannot always access the contents of the Web pages.
