However, keep in mind that the Photoshop program itself is very pricey — at \$600 or more per year. If you do not intend to become a professional, use Photoshop only to manipulate images (such as red-eye removal, background replacement, and color enhancement) and avoid using Photoshop for creating images. Although Photoshop's name has become generic for any kind of photo manipulation, it is still considered a professional tool by many. However, it has a steep learning curve, so you'd better start learning with a book that has comprehensive tutorials and tutorials that are easy to understand. In addition, Photoshop continues to increase in its features so keep the section on the latest version of Photoshop in this chapter handy. I don't want to diminish the great capability and power of Photoshop, but I don't use Photoshop for graphics unless I am working in a professional environment. In addition, Photoshop is a bit expensive for most people to purchase, and is also the primary photo-editing program for professionals. If you are a business owner, I recommend using Adobe's Bridge program or another free alternative like Picasa, which are more powerful and simpler to use. Photoshop Tips for Beginners As with any powerful program, Photoshop requires a bit of knowledge and time to really be proficient with it. Even a basic understanding of the basics — such as layers, layers, layers — can be very helpful in using Photoshop's many tools. This section covers some basic areas that beginners need to know to get the most out of Photoshop. Some of the tips here may seem obvious, but you'll find that the more you use Photoshop, the more you realize how all these tools help you create great-looking images. Drawing (and cutting) freehand All drawing programs come with their own version of a line-drawing tool, although Photoshop's line tool is probably the best of them all. You can draw using any of these tools: Pencil Brush Marker Gradient Other drawing tools Line Free-hand Rectangle Ellipse Polyline Eraser Instead of starting with a predrawn image, you can start your drawing with a blank canvas. Slow Cooker Tuscan Chicken This Slow Cooker Tuscan Chicken is so easy to make, and it tastes amazing! The smoked paprika adds a kick of heat that complements the zing of the lemon juice. Serve over orzo with crusty bread for a hearty one-dish meal. Tuscan foods are strongly associated with Italy and its tradition. Especially with Christmas, when people load their tables with these kinds of dishes. But I think that no one has more glorious recipe than the ones with chicken, like this one! A personal, slightly anecdotal experience, I'd say, inspired this recipe. I used to live in a small town in the Italian region of Tuscany (not the actual place, but a small town in the area). During the holidays, a big local event took place in the small town, where everyone brought their homemade traditional dishes to share and entertain. My parents (and their friends and relatives) always had big parties, with Italian food and music and lots of food. And, being as most people liked drinking wine and drinking it until they were drunk, I was never allowed to stay home alone. One year, I was 14 years old, and I was not allowed to go to the party. In that case, I had to spend the Christmas alone and in the house, lying in bed and watching the soaps (who would want to stay home alone that Christmas?!) But one day, my parents received a traditional Tuscan food gift basket as a gift, with some homemade bread (that I am still dreaming of today!), and a jar of homemade pesto (in the spring I used to plant a big, beautiful basil bush in the backyard, and I had loads of pesto when it was in season). With those ingredients, I made this Slow Cooker Tuscan Chicken. And I was so, so, so happy! I don't remember exactly how the recipe evolved, but I do know that it got better over time. I can't recall how I figured it out, but I think it was a combination of trial and error and lots and lots of praise. This Slow Cooker Tuscan Chicken is so easy to make. Just a few ingredients, a bit of prep, and some slow cooking and it's done! Ingredients 4 lb. chicken thighs 1 tsp. kosher salt 1 tsp. black pepper

Sen. Amy Klobuchar Amy KlobucharPelosi: Trump hurrying to fill SCOTUS seat so he can repeal ObamaCare House lawmakers reach deal to avert shutdown Centrist Democrats'strongly considering' discharge petition on GOP PPP bill MORE (D-Minn.) said this week that President Trump's comments about truckers on the U.S.-Mexico border are "bulls***." "It's a pile of bulls**t," Klobuchar said during a CNN town hall on Tuesday. "There are no more jobs. The jobs we had to have the pollution, to have those dangerous hours. People are missing their kids' graduation. I mean, this is what we're facing as a country. And I think it's a real test of leadership for the president to get in his racist bed on the border." ADVERTISEMENT The Minnesota lawmaker, who was previously a prosecutor, said she is confident that the Trump administration is aware of the situation at the border and "how many jobs are out there" in the trucking industry. In an interview with the Minneapolis Star Tribune on Monday, Trump told Fox Business Network host Lou Dobbs that workers at the border are "truck drivers that are being paid a lot of money" and they had better be grateful for their "jobs." He then appeared to dispute the job numbers from the Department of Labor. "Those numbers are not that high, you can't let them get away with that," Trump said. "When I saw the numbers, they were higher than I thought. But those numbers, those numbers are not what we're looking at." The Department of Labor has reportedly released a report that shows that the number of U.S. workers in trucking and transportation rose by 10 percent from 2017 to 2018, to about 140,000.
