In this game, players have a chance to become the hero of a special world that they can create in harmony with other people, and players will have an opportunity to play as a hero that can go through a story in the online RPG. With regard to the game's main feature, the scenario, the fantasy and the scenario that was created with the developer's original mind, I will be very happy to hear your comments regarding them. I'm quite interested in the story of Elden Ring. The story seems to be filled with diversity and originality. Although a lot of people are asking for the release of the game, I think the game will be quite liked by the players. I hope that players will give the developer's original work a lot of attention. We also prepared the preview video for the game. As you can see, the concept is quite simple, and I believe players will be able to enjoy the game without feeling frustrated. I'll be awaiting with bated breath for the official version of the game. Thank you. We will be releasing more information about the game after that. Yes, I have the person who was in charge of announcing the game with me. I will be sharing the information with them and give them my honest advice. That being said, there is an opportunity to deliver it to you all well in advance. It is likely to be released in approximately two to three months
