Built for two, Firewatch is a psychological thriller from Campo Santo, the developers of the award-winning games Journey, Firewatch and The Unfinished Swan. Set in the fire lookout on top of a wilderness mountain, your time is split between observing the wilderness, and responding to emergency calls. The decisions you make will determine the outcome of the story, sending you on a 3-day hike across the breathtaking wilderness of the Southwest to discover what happened. ESRB/Mature - The Reviewers: [] "A melancholic game of regrets and possibilities - one that's more philosophical than it is steeped in the machinations of the people who populate it." [] "Firewatch is a gorgeous, achingly real, devastatingly funny rollercoaster of a game." 9.0 - Rock, Paper, Shotgun [] "Welcome to an open and atmospheric world, a wonderful sequence that has its own rhythm and charm." [] "It's been a long while since I was this captivated by a story about being stuck in a job I hate." 9.4 - Game Informer In the world of Firewatch, being 'zoned-out' is a choice. It could just be you being too weary of the present, or it could be something more. Your character is Henry, an everyman with an off-day. When his attention wanders while working the night shift at a lookout station at the forested wilderness fire lookout, we get a chance to see the setting that surrounds him, and how he reacts to its beauty. He doesn't see it. "He looks away because if he didn't, his sight might disappear, too." Henry's daydream is interrupted by a phone call from a woman named Delilah, who works the day shift at the station and is worried about her friend Lillian. When Delilah's worries turn into an emergency, Henry heads into the woods and discovers a path of events that will change him and the land around him forever. "Inspired by William Gibson's 1992 cyber-utopia novel Neuromancer, Firewatch combines retro style, character-driven storytelling and a unique vision of the West in one deceptively simple package. It's also a refreshingly mature title from an up-and-coming indie developer; the game doesn't make you feel dumb for playing through it all at once, but its message is clear

"Horror Tales Saga" is an indie RPG that was developed by a small team of indie developers to satisfy their thirst for Horror Games. The goal of the team is to make a horror game that fits all our needs. Horror, Carnage, gore, awesome music, Survival and Horror Stories are just some of what you can expect. This is the Early Access release of the game. If you like the game, it will be better in the full release. If you don't, you may withdraw any time with no penalties as long as you have your registered Steam Wallet (any amount). Game Features: - Horror: A world with friendly monsters that shall make your blood freeze and your skin crawl, but behind those friendly creatures lie horrible creatures waiting to pop out. You will never know what awaits you. - Carnage: Lots of blood, guts, maggots and other fluids. All in first person. Make your choice and choose how you want to die. - Gore: Some of the scenes, scenes that will haunt you when you are laying in bed at night. You will never forget those scenes. - Survival: You are fighting a Horror horror story. It's not time for stories and fairytales. Its all about survival. - Horror Stories: My sweet nightmares that will give you sleepless nights for days. You will experience multiple endings depending on your choices and actions throughout the game. Conclusion: If you do find yourself wanting to quit the game, just load it again and choose a previous save. The space station needs a crew for it's operation. You are one of many volunteers. The way in is the only way out. You will have to discover the secrets of the station. Find out what happened to the last crew and then get to the truth of the ending. Don't forget to support us by getting all the DLCs and Steam Achievements unlocked. If you like the game, please also support us on our Patreon. If you want to make this game even better, give us your ideas and give us your ideas for new content. DEVS - KRC: The game's designer, developer and programmer. - Tck: Good programmer and technical director - FioX: Good programmer and sound designer - Jochen Theiss: Good Technical Director and Producer - Janne: Cameraman - Markus Höfler: c9d1549cdd

Composer Anders Thulin has taken his creation and placed it in the real world, for the global environment, for the human kind, for the animal kind, and for the plant kind. But most importantly, he has taken it and expressed it as a real radio song. Story of The GameThe game is based on Anders Thulin's own eco-terroristic noisemakers (aka Radio Killer) noisemakers. The noisemakers are deployed in air raid situation, as a weapon against the human kind, the animal kind, the plant kind and for the global environment. Your mission is to take out all the noisemakers and play the radio song, as the "Enforcer". * Features:* Simple and intuitive game play.* Different levels of difficulty.* The game will keep track of high scores.* When the game is paused, you can select the background, equalizer and track.* Player can select track from the "Radio Killer" music library* Player can add extra-song track(s) to the mix. Anders Thulin, composer for "Radio Killer", has also composed and made available for download some additional cool music that goes along with the game. * Check out:* Anders Thulin: @dogge11: I changed the rating as soon as I had received a review request for 5 stars and had the review written by the guy himself. Didn't realize he was a new customer, so I wrote the review directly for him, as someone who has never been a customer before. I didn't want to cause an argument in the comments. @Bluenose18: When I saw you were a new customer, I figured you might not have even played the game before, so I quickly changed the rating for you. Sorry for the little delay.Q: How can I tell if my iOS app is running on any of a set of API platforms? Suppose I write an app that uses

The Gojpan Promise is about the adventures of the protagonist, Moe Jiggery, and his best friend Hayashi Hatsuji. This adventure unfolds in the world of Gojipan, a city where 4 distinct lifestyles live in close contact. One of these lives is the world of Miyakoism, and Hayashi lives there. The people of Gojipan have heretofore lived as monks, thinking that all of life must be lived in monastic precincts. But the four new lifestyles and the new people who live in them are different from those monks. The true nature of the body-the body we live in-may not be discerned by our eyes. Our eyes can only perceive forms. Hayashi secretly leaves his monastic life behind without saying good-bye to anyone. He only wants to run away from all the nonsense that has made him unhappy. However, when he comes to a Gojpan named Kanon, he is in fact summoned to a Gojpan City. What sort of Gojpan City is this!? And will he be able to return to the life that has become meaningless?
