For more information, visit [However, I want to keep my Google Chrome icons on my desktop. Do I have to do something else in order to get Adobe to treat the Google Chrome desktop icon like any other file?](#) A: It's working for me. The message "Adobe Presenter running in Google Chrome" and the "Restart Adobe Presenter" link is added at the top of the Google Chrome menu bar. The page also tell you how to remove the message: Select Show Options. Select General. Select Never Show Again. Just hit the Apply button and try to reopen your application.

Q: Saving a float value for a column in MySQL I'm new to MySQL and I'm stuck on a task that should be easy for you. I want to write a program that inserts an integer value into a float column in the database. This is the code I have right now: I'm getting an error saying that "You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near '1')' at line 1 What am I doing wrong? Thank you for your help! A: Use "values" (i.e. no quotes).

"Insert" is a reserved word in MySQL. Q:
