Keygen. Whole Grain Pancakes with Blueberries and Cream Cheese I absolutely love pancakes. I feel like they're a tradition breakfast meal that's not only easy to make, but also pretty easy to prepare. They're simple, filling, and don't require any fancy equipment. They're also extremely versatile. You can make them with all kinds of fillings, from plain oats to fruit, nuts, and even cheese! Today's breakfast was blueberries and cream cheese. There are a couple of ways to go about this. For a really big breakfast, you can cook the pancakes and to make the pancake batter. While the pancakes are cooking, you can make the batter and have the kids mix up the batter when the pancakes are finished. Or for a smaller breakfast, you can make the batter in one pan and the pancakes in another. I like both ways, but whichever method you choose, make sure to allow plenty of time for each step. When making pancakes with blueberries, my husband likes to eat the pancakes plain. I like mine with a little bit of cinnamon. Today we ran out of vanilla extract and I decided to use almond extract. I swear, it makes a huge difference. Lately I've been trying to eat more whole grains. They're a great source of fiber and they're often full of antioxidants. I was able to use my old favorite pancake recipe to add some whole grains to the mix. Instead of using oats, you can use oat flour. While oat flour is widely available, if you don't have access to any, you can make your own by soaking 1/3 cup of oats in 1/2 cup of water for about 6 hours. After they're soaked, drain them and put them in a blender or food processor and process until they turn into a flour. I'm sharing this recipe with a couple of other guest posts that I featured in my latest book, Dinner from What. The first is a delicious breakfast with eggs and sausage by MomofTwoCooks. The second is a yummy cornmeal recipe by Hudson. Directions Cook the pancake batter in c6a93da74d
