fen: prologue ativador â™ i The new year is coming. All people sum up and write down their expectations for the next year. I also decided to do this. I want to tell you that this year was not the easiest, but not the most difficult either. I want to wish you that your heart is not as lonely as it was in my head. So that in 2020 you finally understand that there is true love, that you need to love your job, that you need to live with someone you really need, and not with the person you love. Because then it will be too late. dd2bc28256
