AirBox Playout Software | airbox playout software | AirBox Software >>> AIRBOX® - AirBox is a software system that manages multiple AVB feeds in real-time. AIRBOX® is a software system that manages multiple AVB feeds in real-time. .. is not associated with. permalinkThe present invention relates to a controller that controls a device for use in the automatic sheet feeding device and more particularly to a controller for controlling a sheet feeding device and a document conveying device that can be moved along the side edges of documents. In the automatic document feeding device, there are provided a plurality of rollers that contact documents fed by a feeding device, a guide member that guides the fed documents to the rollers, and a sensor that detects the conveyed documents. The apparatus is provided with a driving device for driving the rollers or the guide member to which the document is conveyed or to which the document is conveyed is stopped, and a controller that controls the driving device based on detection signals from the sensor. Also, as a device for conveying a document, there is provided a type that conveys a document in the width direction and a type that conveys a document in the longitudinal direction. The former type, i.e. a width-conveying device, includes an endless paper chain that conveys the document in the width direction, and there are provided a driving roller and a driven roller that rollably contact the paper chain. In the width-conveying device, the paper chain is driven by driving the driving roller to contact the paper chain, and a detection sensor is provided at the middle of the paper chain to detect the paper chain. If the paper chain is not detected, the paper chain is driven by the driving roller f988f36e3a
