I want to insert the file to particular table in MySQL database. I am not a MySQL user and I am trying to do this as my company is moving towards use of CRM system. The excel file is in xml format. I have figured that I would have to create a connector and map the data to MySQL table. I have installed the PEAR package in the server and am able to read the excel sheet as it is a PHPExcel package. \$file = "test.xlsx"; \$objPHPExcel = PHPExcel_IOFactory::load(\$file); I want to know how should the connection between PHPExcel and MySQL database. A: create mysqli connection and pass to the PHPExcel_IOFactory class, for example: // your MySQL credentials here, see here: \$db_user = "your-user"; \$db_pass = "your-pass"; \$db_server = "your-db.com"; \$db_port = 3306; \$this->conn = new mysqli(\$db_server, \$db_user, \$db_pass, \$db_port) or die("Connection failed."); // create the new PHPExcel instance \$objPHPExcel = PHPExcel_IOFactory::load(\$this->conn, 'Excel2007'); // Add
